

RED DOT // RIFLE

AIMPOINT® ACADEMY

Cost: \$600 | Length: 2 Days

Aimpoint® Academy Rifle Red Dot is a two-day course that is designed to give students a thorough understanding of key concepts, principles, and techniques that relate to the use of Aimpoint® red dot sights (RDS) for combat or defensive shooting. The course focuses on maximizing the benefits of the red dot sight in terms of speed and accuracy. We'll also dispel some myths related to RDS, revisit marksmanship fundamentals from a coaching perspective, and address some advanced topics like CQB moving and shooting and low light rifle employment.

While the material is fundamental in nature, this is an instructor-level course. The course is highly customizable, however, so it can (and typically will) be adjusted to the skill level and needs of each client agency.

Note that Aimpoint® Academy courses are sponsored by our friends at Aimpoint®, who don't just talk about supporting the military and LE... they do it. They frequently subsidize courses to reduce the cost for agencies or units. Contact us for more information.

COURSE TOPICS

Key concepts, including parallax, minute of angle, and trajectory | Mounting, cleaning, and maintaining Aimpoint sights | Rifle marksmanship fundamentals | Understanding and establishing zero | Positional shooting | Shooting from cover | Rapid target acquisition | Multiple target engagement and rapid target transitions | Moving and shooting inside of structures | Shooting techniques for halls and stairways | Searching for, assessing, and engaging targets in low light

PREREQUISITES

This course is open to US military, law enforcement, and select security professionals.

EQUIPMENT

Rifle/ carbine with optical sight, sling, and at least 4 magazines | Duty/ tactical gear (with ability to carry at least 3 spare rifle mags) | PPE (eye and double ear protection; hat or helmet; body armor is optional but recommended) | Notepad & pen | Approximately 600 rounds of rifle ammunition

While we recommend that you use your own gear if available, all required gear, including rifle and optic, is available for use during this course.

HOSTING REQUIREMENTS

To run this course at host locations, we need:

- 1) a classroom with multimedia capability (or at least power);
- 2) a live-fire range.

If you or your agency is interested in hosting, please contact us for pricing and other details.
