

# TECHNICAL PISTOL

Cost: \$250 | Length: 1 Day

Technical Pistol for Police is an 8 hour course (that can be broken into two 4 hour modules) designed for the working law enforcement professional. Though most LEO's have a solid background in pistol marksmanship, the demands of the job compete with effective training and improvement. This course re-engages critical pistol fundamentals, establishes a skill baseline, and introduces the individual officer to an effective Human Performance Technology based improvement process.

## COURSE TOPICS

---

Training model overview | Proper grip – how and why | Sight picture and sight lift | Trigger manipulation | Trigger-centric vs sight-centric shooting | Biomechanics of pistol presentation | Drawing the pistol | Combat reloads | Gaining speed through efficiency

## PREREQUISITES

---

This course is open to US military, law enforcement, and select security professionals.

## EQUIPMENT

---

Duty pistol with at least 3 magazines | Duty gear, including holster and mag pouches | PPE (eye and double ear protection; hat or helmet; body armor is optional but recommended) | Notepad & pen | Approximately 100 rounds of quality pistol training ammunition

## HOSTING REQUIREMENTS

---

To run this course at host locations, we need:

- 1) a classroom with multimedia capability (or at least power);
- 2) a live-fire range.

If you or your agency is interested in hosting, please contact us for pricing and other details.
